

## CHANGE IS COMING

The Centers for Medicare and Medicaid Services (CMS) has mandated changes to how funds are managed and services are provided to citizens with developmental disabilities. The mandate states that the same organization can no longer provide both case management and direct services to individuals receiving waiver funding.

“Conflict-Free Case Management” requires all Ohio counties to transition all waiver-funded services to non-affiliated service provider organizations by 2024.

As a result, County Boards statewide are expected to transition 70 percent of individuals receiving waiver services to private providers by 2020.

### OUR VISION

We envision a community where individuals with intellectual and developmental disabilities are valued, respected and integrated into open and barrier-free environments where they can thrive.
